

# Luapula Institute of Science and Technology - LIST

by NewsGuru Media Team

24 Mar 2021

Luapula Institute of Science and Technology (LIST) offers a comprehensive range of computer services in Mansa, Luapula Province, Zambia. This local business specializes in computer repair, maintenance, database design, and web design, along with various support services tailored to meet the needs of individuals and organizations. LIST operates from the Twashuka Building, Room 2, strategically located off Cathedral Rd.

The institute has established itself as a reliable resource for technical skills training in the region. With a focus on quality service and customer satisfaction, LIST addresses common technical skills training issues efficiently while also providing robust consultancy solutions for industries. The experienced team at LIST understands the importance of technology in today's world and works diligently to ensure that all clients receive timely and effective assistance. In addition to skills training, LIST emphasizes the significance of application and web design for local businesses aiming to enhance their online presence. The team collaborates closely with clients to create customized solutions that align with their specific requirements. This approach not only improves functionality but also fosters growth in the digital landscape. Luapula Institute of Science and Technology delivers essential skills training, ensuring that clients receive expert training and reliable solutions. The commitment to excellence and customer satisfaction makes LIST a valuable asset to the Mansa community. Reach out to Luapula Institute of Science and Technology in Mansa for professional skills training and related consultancy today.
