Kabwe Katenda is a rock formation in Zambia's Luapula Province, near the town of Chiengwe. It is a recognized national monument and a significant cultural site for the local Bwile people.

Key facts about Kabwe Katenda:

A "natural wonder": Described as a large stone that has rested on a smaller one for centuries without falling, with a cave inside.

Cultural significance: The site is a central part of the Bulile Traditional Ceremony of the Bwile people, which is held in Chiengwe.

National monument: The National Heritage Conservation Commission officially declared Kabwe Katenda a national monument in 2023.

Local landmark: It is a well-known feature among people from the area, including those from Ponde village.

Tourist attraction: Visiting Kabwe Katenda is part of the experience for those attending the Bulile Traditional Ceremony and offers impressive views from the top.
